

Phytonews Index

Issues 1- 40

September 1998 to November 2014

Key: 6:8 = Issue 6, page 8

A

Adhatoda: antitussive action 6:8

ADHD

dietary supplementation compared to Ritalin 19:12
 Ginkgo and Chamomile for 33:5-6

Age-related disorders, combination of Ginger & Ginkgo 13:6-7

Agrimony for Hepatitis B 23:12

Akeake, anti-microbial effects 16:1-3

Albizzia lebbbeck, antispermatogenic effects 25:12

Allergies

Anti-allergic effects of:
 peppermint 14:8-9
 Black cohosh 19:6
 Burdock 30:3-4
 Histamine release from mast cells & Tannins 8:6

Alzheimer's

Apples, preventative 26:10
 fish consumption 18:10-11
 Ginkgo, as a preventative 16:8
 fruit and vegetable juices 22:12
 high fat diet and predisposition to 7:9
 Lamiaceae family plants 17:9-10
 obesity 19:13
 Sage 16:3-4

American Ginseng:

a review 15:1-8
 endangered herbs 18:1-5
 helps fight cancer-related fatigue 40:8-9
 helps schizophrenic patients 38:1
 improves cardiovascular parameters in type 2 diabetes 40:9-10
 prevention of acute respiratory illness in institutionalised adults 20:4
 regeneration of retinal ganglion cells 12:11-12

Amnesia, and ginkgo 21:7

Andrographis,

anti-cancer effects 28:11-12
 a useful adjuvant to cisplatin 38:10

Ankle distortions, and comfrey ointment 20:2-3

Ankle sprains, comfrey ointment compared to diclofenac gel 24:1-2

Anti-abortion effect of Baical skullcap & Atractylodes 13:10-11

Antibiotics

and paracetamol, and increased risk of asthma 20:12
 resistance 19:1-3
 resistance, linked to use in animals 25:5
 synergistic effects with Thyme & Baical skullcap 23:11

Antidepressant (see under Depression)

Antifungal, synergistic effects of Myrtle oil against *Candida albicans* 35:7
 thrush, oral 31:10

Anti-HIV, Artemisia annua shows anti-HIV activity 38:7

Antihypertensive effects of olive oil 20:8-9

Anti-inflammatory effects Echinacea purpurea & Hypericum perforatum 14:12

Anti-influenza properties of Silymarin 37:6-7

Antimicrobial effects of Akeake 16:1-3

Anti-oestrogenic effects of Bladderwrack 20:10

Antioxidant

cyanidins in cherries & berries 13:3
 effects of Bacopa 7:8
 effects of Baical Skullcap with grapeseed 19:9
 effects of Hypericum 13:4-5
 effects of Lycium 14:9

Antipruritic effects of Chamomile 22:4

Anti-stress effects of Lemon Balm 20:7

Antispermatogenic effects, Albizzia lebbbeck 25:12

Antithrombotic effects of Thyme and Rosemary 22:3

Antitussive

action of Adhatoda 6:8
 activities of certain herbs 39: 6-7

Antiviral effects of Ginger against Influenza A virus 24:4

Anti-wrinkle cosmetics, herbal, evaluation of 35:6-7

Anxiolytic

of glycowithanolides from Withania 10:7
 of flavonoids from Baical Skullcap 14:11
 of Lemon Balm and Valerian 24:5
 of Passionflower 30:1-2

Aphrodisiacal effects of Damiana 5:4-5

Apples, protective against Alzheimer's? 26:10

Arnica, transdermal transfer of actives 17:12

Artemisia annua,

shows anti-HIV activity 38:7
 antimalarial activity 19:7

Asthma risk, and antibiotics and paracetamol 20:12

Astragalus:

& Dong Quai for impaired kidney function 34:4-5
 cardioprotective effects potentiated by Polygonum 7:11
 adjunctive treatment for lung cancer 25:1-2

Atractylodes, and Baical skullcap, anti-abortion effect 13:10-11

Avian influenza,

person-to-person transmission 21:8-9
 25:9

update 23:1-5

Avocados, and prostate cancer 21:10

Azathioprine hepatotoxicity, liquorice preventative against 26:8-9

B

Back pain, and Comfrey ointment 33:1-2

Bacopa

and human memory 14:6
 and hypothyroidism 14:6-7
 and liver toxicity 14:7
 and morphine withdrawal 14:7
 antioxidant effects & protection against phenytoin-induced
 cognitive defects 7:8

Baical Skullcap

& Atractylodes, anti-abortion effect 13:10-11
 anti-cancer effects 17:5-6
 anti-nausea properties 24:10
 antioxidant effects with grapeseed extract 19:9
 anxiolytic effect of flavonoids from 14:11
 chemotherapy-induced nausea 17:7-8

Baical Skullcap continued

flavones interact with benzodiazepine receptors 6:7-8
 possible interaction with cyclosporin 19:8
 synergistic effects, with Dan Shen 22:5
 synergistic effects with antibiotics 23:11

Benzodiazepine

receptors: Interaction of Baical Skullcap flavones and 6:7-8
 withdrawal, and Valerian 14:10

Benign Prostatic Hypertrophy (BPH)

Echinacea prevents? 33:2-3
 Saw Palmetto compared to Finasteride 3:2-3
 mechanism of action of Saw Palmetto & Nettle root 11:6

Bilberry – induction of apoptosis in cancer cells 15:8-9**Biodiversity** and organic growing 19:15**Blackcurrant** extract, inhibition of herpes simplex virus 17:4**Black Cohosh**

alleged hepatotoxicity 14:3-4 & 26:1-3 & 31:7-9
 and breast cancer 16:2-3 & 21:6 & 28:1-2 & 30:9
 and prostate cancer 22:6
 anti-allergic activity 19:6
 endangered herbs 18:1-5
 endometrial cancer 19:6
 liver toxicity risk over-rated 36:7
 menopausal symptoms 28:3-4
 & patients on Tamoxifen 36:6

Blackseed protects against ciprofloxacin-induced seizures? 39: 4-5**Bladderwrack**, anti-oestrogenic effects of 20:10**Bone**

loss, postmenopausal 31:5-6
 fracture healing, Propolis improves 37:11-12

Bowel cancer and red meat 22:9-10**Brain disease**, and chemical pollution 20:1-2**Breastfeeding**, safety of St John's wort 18:11-12 & 21:2-3**Bupleurum** spp.

and lung cancer 22:7
 recent research 2:7-8

Burdock anti-allergy properties 30:3-4

gastroprotective properties 30:5

BZP-based party pills, toxic effects 24:11-12**C****Calendula** ointment, and radiotherapy-induced skin damage 20:3**Cancer**

(see also under *chemo- & radiotherapy and specific cancers*)

Anticancer:

activity of Dandelion root 6:6-7
 effects of Andrographis 28:11-12
 effects of Baical Skullcap 17:5-6
 properties of Chaste Tree 22:8
 effects of Echinacea 27:1-2
 properties of Elecampane 26:11-12
 properties of Panax notoginseng 33:6-7
 synergistic effects, Dan Shen and baicalin 22:5
 apoptosis, induction of by Bilberry 15:8-9
 bowel and red meat 22:9-10
 breast, and Black Cohosh 16:2-3 & 21:6 & 30:9
 cancer-related fatigue and American ginseng 40:8-9
 colorectal, prevention of 8:6-10
 endometrial, and black cohosh 19:6
 Essiac and Flo-Essence 19:10
 hepatocellular carcinoma, Chinese formula 2:5
 Hypericum, inhibition of human malignant cells *in vitro* 13:3-4
 Leukaemia and Echinacea 10:4
 Liver, and dandelion 19:11
 Liver, and Dan Shen 11:3
 lung & Astragalus 25:1-2
 & Bupleurum 22:7
 muscle loss, and fish oils 17:11
 oral, prevention of by Ginkgo 23:8
 ovarian, Rosemary protects against 38:5
 prevention of by watercress 8:4
 prostate
 & Black Cohosh 22:6
 & Chaste tree 25:3
 & Milk thistle 19:12
 & avocados 21:10
 & flaxseed 11:5
 & red clover isoflavones 15:12-13
 dietary influences on chemoprevention 40:11-12
 dietary risks for 5:1-2

Candida albicans, thrush, oral 31:10

synergistic effect of Myrtle oil against 35:7

Cannabis and stroke 3:5**Cardiovascular health,**

and fibre 15:16

Heart disease, prevention of, and kiwifruit 20:8

Cardiovascular risk parameters, effect of White horehound 16:5-6
 and White Horehound 26:6

Cardiac function, wild strawberry leaves improve 33:7-8

and congestive heart failure 10:2-3

Hawthorn, cardiovascular benefits of 36:11-12

Hawthorn, high doses in congestive heart failure 16:7

Cardiovascular health, cont

Hawthorn, lack of interaction with digoxin 17:3-4

Fibre, and cardiovascular health 15:16

Kiwifruit, prevention of heart disease 20:8

Coronary heart disease & coffee 5:3 & tea 15:15

cardioprotective effects of Dong Quai potentiated by Polygonum 7:11

Olive oil, and anti-hypertensive effects 20:8-9

Cat's Claw

& chemotherapy-induced leukopenia 7:10-11

& leukopenia 16:6

Chamomile

ADHD 33:5-6

antipruritic effect 22:4

human metabolic responses 21:4

reduction of morphine dependence and withdrawal symptoms 17:4-5

prevention of Diabetes complications 31:11-12

Chaste Tree

an update 9:8-9

& PMS 10:6

anticancer properties 22:8

anti-prostate cancer 25:3

Chemical pollution, and brain disease 20:1-2**Chemoprotective** effects of

Milk thistle 14:7-8

Rosemary 11:4

Chemotherapy

& Withania as an adjunctive treatment 18:9-10

& Ginkgo for chemotherapy induced testicular damage 31:3-4

Chemotherapy-induced leucopenia and Cat's Claw 7:10-11

Chemotherapy-induced nausea, and Baical Skullcap 17:7

Cherries & berries, antioxidant and anti-inflammatory effect 13:3**Children**, the safety of Echinacea in 38:2**Cholesterol:**

& diet 25:7

& Fenugreek 5:3-4

& Globe artichoke 30:8

Biosynthesis & inhibition by Globe Artichoke 3:3-4

& pistachio nuts 9:10

& soy 20:9

& walnuts 7:9-10

& Withania 25:6

LDL levels and soy consumption 15:9

Chronic fatigue & Eleutherococcus 19:4**Cinnamon** for diabetes mellitus 19:9 & 25:8**Cisplatin**, Andrographis a useful adjuvant to 38:10**Citalopram**, antidepressant effects of St John's Wort last longer than 36:2-3**CNS receptors:** Kava's interactions with 10:5**Cod liver oil**, & osteoarthritis 18:6-7**Coffee**

& coronary heart disease 5:3

& prevention of diabetes 15:10

Cognitive performance

& corydalis 24:8

& fish consumption 18:10-11

& Ginkgo 8:3 & 23:9

& lemon balm 17:10-11

& sage 24:9

Colorectal cancer: Prevention of 8:6-10**Comfrey ointment**

& ankle distortions 20:2-3

compared to diclofenac gel for ankle sprain 24:1-2

for back pain 33:1-2

Complementary medicines, use, understanding and attitudes 30:10-11**Congestive heart failure**

& Hawthorn 10:2-3

high doses of Hawthorn 16:7

Constipation & intolerance to cows milk 2:7**Coronary heart disease**

& coffee 5:3

& tea 15:15

Corydalis, memory and cognition 24:8
Cranberry-ligonberry juice & prevention of recurring UTI's 10:7-8
Crohn's disease, beneficial effects of wormwood 27:3-4
Cyclosporin, possible interaction with Baical skullcap 19:8
Cytochrome P450
 influences of Ginseng, Ginkgo & Garlic 23:10
 inhibition of by herbal extracts 8:2-3

D

Damiana – aphrodisiacal effects of 5:4-5
Dan Shen
 & liver cancer 11:3
 synergistic effects with baicalin 22:5
Dandelion leaf – diuretic effects 34:7-8
Dandelion root
 anti-cancer activity 6:6-7
 and liver cancer 19:11
Degenerative joint disease & Devils claw 9:4-5
Dementia
 epidemic forecast 22:11
 Ginkgo compared to cholinesterase inhibitors 9:6-7
 prevention of, and Ginkgo 30:6-7 & 31:1-2
 Ginkgo, preventative of Alzheimers-type dementia 16:8
Depression
 St John's Wort
 & depression 9:7-8 & 21:1-2
 anti-depressant components 17:7-8
 anti-depressant effects of last longer than Citalopram 36:2-3
 compared to fluoxetine in the treatment of depression 6:5
 compared to paroxetine for severe depression 21:1-2
 clinical trial 8:5-6
 flawed clinical trial 12:7-8
 & Withania 10:7
Devils Claw
 & degenerative joint disease 9:4-5
 endangered herbs 18:1-5
Diabetes
 & Chamomile 31:11-12
 & Cinnamon 19:9 and 25:8
 & Sage 22:2
 & silymarin 27:7-8
 & Turmeric 12:11
 American ginseng improves cardiovascular parameters 40:9-10
 platelet function and Ginkgo 23:7
 prevention of by peanuts and coffee 15:10
 related infertility, Ginger beneficial in 36:8-9
 Pockeroot, for diabetic glomerulopathy 20:7
Digestive effects, of Globe Artichoke 35:8-9
Diuretic effects of Dandelion Leaf 34:7-8
Dodonaea viscosa (Akeake), antimicrobial effects. 16:1-3
Dong Quai
 cardioprotective effects potentiated by Polygonum 7:11
 flawed trial 12:9-10
 in menopause 1:7-8
Drugs – efficacy compared to herbal medicines:
 Comfrey ointment and diclofenac gel for ankle sprain 24:1-2
 Ginkgo and cholinesterase inhibitors in dementia 9:6-7
 Propolis ointment and acyclovir in genital herpes 7:7-8
 Hops-Valerian combination and bromazepam for sleep disorders 3:5
 Saw Palmetto and finasteride in BPH 3:2-3
 anti-depressant effects of last longer than Citalopram 36:2-3
 compared to fluoxetine in the treatment of depression 6:5
 compared to paroxetine for severe depression 21:1-2
Drugs - Interactions
 Baical skullcap and cyclosporin 19:8
 Ginger and cyclosporin 27:5
 Hawthorn and digoxin, lack of interaction 17:3-4
 Horsechestnut & warfarin 3:6-8
 Ginkgo and haloperidol in Schizophrenia 9:5-6
 Paeony and laxatives 27:6
 St John's Wort and irinotecan 14:5-6
 St John's Wort and various drugs 6:1-5 and 7:11-12
Drug withdrawal
 Morphine withdrawal,
 and Bacopa 14:7
 and Chamomile 17:4-5
 Opiates
 Rosemary 40:2-3
 St John's Wort 40:3-4
 Valerian for benzodiazepine withdrawal 14:10
Dysmenorrhoea, and Chinese herbal medicine 29:5-6

E

Echinacea
 a review 4:2-12
 & fertility fears, and St John's Wort and Ginkgo 3:1-2
 & influenza 32:5-6
 & leukaemia 10:4
 & pregnancy 8:1-2
 & regulation of human gene expression 17:2-3
 anticancer effects 27:1-2
 anti-inflammatory effect 14:12
 effects on virus-induced respiratory cytokines 24:3-4
 flawed clinical trial 15:11-12
 in the firing line...again 18:7-9
 liver health, improves? 37:4-5
 meta-analysis 28:7-8
 negative press 23:6
 prevents prostatic hypertrophy 33:2-3
 promotes wound healing 33:3
 promotes longevity 23:5
 recent studies & drug interactions 34:6-7
 safety of echinacea in children 38:2
 wildcrafting of outlawed in US 4:12
Echinacea pallida and URTI's 1:8
Elder – Insulin-like effects of 7:9
Elecampane
 & tuberculosis 4:1
 anti-cancer properties 26:11-12
Eleutherococcus and chronic fatigue 19:4
Endangered herbs 15:13-15 and 18: 1-5
Enterobacterial infections, Hemidesmus 25:4
Epilepsy, and Hypericum constituents 16:4
Essiac and Flor-Essence and cancer 19:10

F

Fat intake
 and risk of stroke 11:6-8
 dietary intake reduced by Fenugreek 34:1-2
 high fat diet and predisposition to Alzheimers 7:9
Fatigue & Siberian ginseng 19:4
False Unicorn Root – potential substitutes 15:13-15
Fenugreek reduces dietary fat consumption 34:1-2
 & cholesterol 5:3-4
Fibre, and cardiovascular health 15:16
Fish, baked, and stroke 21:11
 consumption & cognitive performance and Alzheimer's 18:10-11
Fish oils, and muscle loss in cancer 17:11
Flaxseed and prostate cancer 11:5
Fracture healing, Propolis improves 37:11-12
Fruit and vegetable juices, and Alzheimers 22:12

G

Garlic, effect on cytochrome P450 in elderly 23:10
Gastric hyperperistalsis and accelerated transit time, and ginger 16:5
Gastroprotective
 & other lesser known activities of White Horehound 37:2-3
 properties of Burdock 30:5
Genetic modification and Monsanto 19:14
Genital herpes: Propolis ointment compared to acyclovir 7:7-8
Gentamycin induced ototoxicity, Ginkgo protects against 36:9-10
Ginger
 & honey formulation, and morning sickness 14:4-5
 Beneficial in diabetes-related infertility? 38:8
 combined with Ginkgo for age-related disorders 13:6-7
 effect on gastric hyperperistalsis 16:5
 inhibitory effect against Influenza A virus 24:4
 interaction with cyclosporine? 27:5
 for weight loss 22:1-2
 protects against statin hepatotoxicity 35:1-3
Ginkgo
 acute vs chronic administration in healthy volunteers 23:9
 & ADHD 33:5-6
 & alcohol-induced liver injury 27:9-10
 & amnesia 21:7
 & chemotherapy induced testicular damage 31:3-4
 & cognitive performance 8:3

Ginkgo continued

- & colchicine 11:2
- & coronary blood flow 29:3-4
- & dementia, prevention of 31:1-2
- & fertility fears 3:1-2
- & multiple sclerosis 24:7
- & haloperidol in schizophrenia 9:5-6
- & liver disease 19:5
- & PAF inhibition 21:7
- & tinnitus 13:5-6
- & vitiligo 16:7-8
- combined with Ginger for age related disorders 13:6-7
- compared to cholinesterase inhibitors in dementia 9:-6-7
- effect on cytochrome P450 in elderly 23:10
- effect on platelet function in diabetes 23:7
- memory, improves, in middle-aged healthy volunteers 37:10-11
- no influence on antiplatelet activities of ticlopidine 34:2-3
- preventative of Alzheimers-type dementia 16:8
- prevention of dementia 30:6-7
- protects against gentamycin induced ototoxicity 36:9-10
- protects against oral cancer 23:8
- regeneration of retinal ganglion cells 12:11-12
- toxicology study in rodents 39: 10-11

Ginseng (see under American, Korean, Siberian, Tienchi Ginseng)**Globe Artichoke**

- cholesterol lowering effects
- inhibition of cholesterol biosynthesis 3:3-4
- irritable bowel syndrome 13:12
- useful digestive effects 35:8-9

Goat's Rue and weight loss 6:7**Golden Seal**, endangered herbs 18:1-5**Gypsywort**, and mild hyperthyroidism 29:7-8**H****Hawthorn**

- and congestive heart failure 10:2-3
- cardiovascular benefits of 36:11-12
- high doses in congestive heart failure 16:7
- lack of interaction with digoxin 17:3-4

Hemidesmus for enterobacterial infections 25:4**Hepatocellular carcinoma** - Chinese herbal formula 2:5

- β -Aescin potentiates 5-Fluorouracil against 35:11-12
- Liver cancer and Dan Shen 11:3

Hepatoprotective

- properties of legumes 10:3-4
- Echinacea improves liver health 37:4-5
- Ginkgo & liver disease 19:5
- Ginkgo & alcohol-induced liver injury 27:9-10

Hepatotoxicity (also see under liver toxicity)

- & Black Cohosh 14:3-4, 26:1-3, 31:7-9, 36:7
- & Kava 17:9
- & Kava raw material quality 37:8-9
- & statins, Ginger protects against 35:1-3
- azathoprine, liquorice as preventative 26:8-9
- and Bacopa 14:7

Hepatitis B and Agrimony 23:12**Herpes**

- Herpes simplex virus, inhibition by blackcurrant extract 17:4
- Herpes zoster, Propolis ointment compared to acyclovir in genital herpes 7:7-8

Histamine release from mast cells & Tannins 8:6**HIV-anti**, Artemisia annua shows anti-HIV activity 38:7**Hoheria**: Monograph 9:2-4**Hops** and Valerian combination compared to bromazepam for sleep disorders 3:5**Horsechestnut**

- and human hepatocellular carcinoma – β -Aescin potentiates 5-Fluorouracil against 35:11-12
- and venous insufficiency 3:4
- and warfarin – interaction of 3:6-8

HRT,

- risks of 13:1-2
- more on the negative effects 18:5-6

Hypericum – see St John's Wort**Hypercholesterolaemia** & Withania 25:6**Hypoglycaemic** and antioxidant effects of Lycium 20:6**I****Infertility**, diabetes-related, Ginger beneficial in? 36:8-9

Fertility fears and Echinacea, St John's Wort and Ginkgo 3:1-2

Influenza A virus,

- ginger, inhibitory effects against 24:4
- and pandemic risks 32:2-3
- and phytotherapy 32:1-8
- anti-influenza properties of Silymarin 37:6-7
- 'swine flu' 32:1-8

Inhibition of cytochrome P450 by herbal extracts 8:2-3**Insulin-like** effects of elder 7:9**Iron absorption** – enhancement of by herbal medicines 1:7**Irritable bowel syndrome**

- Chinese herbs and 2:6
- Globe artichoke 13:12

J**Joint disease, degenerative** & Devils claw 9:4-5

Also see Osteoarthritis

K**Kava**

- and hepatotoxicity Supplement 1, January 2002
- a review 5:6-12
- endangered herb 18:1-5
- hepatotoxicity and raw material quality 37:8-9
- interactions with CNS receptors 10:5
- no hepatotoxic action 17:9
- safety following chronic use 26:4-5
- withdrawn in Australia 14:1-3

Kahikatea: Monograph 12:2-7**Kawakawa**: Monograph 7:1-7**Kidney function**, impaired, Astragalus & Dong Qual for 34: 4-5**Kiwifruit**,

- prevention of heart disease 20:8
- immunomodulatory effects 29:11-12
- Organic kiwifruit healthier than non-organic 27:9-10

Korean Ginseng, effect on cytochrome P450 in elderly 23:10**Kumerahou**: Monograph 2:2-4**L****Lactation** (see under breastfeeding)**Lactobacillus** and prevention of recurring UTI's 10:7-8**Lamiaceae** family plants, and Alzheimer's disease 17:9-10**Laxatives**, adverse interaction with Paeony 27:6**Legumes**: hepatoprotective effects of 10:3-4**Lemon Balm**

- anti-stress effects 20:7
- anxiolytic effects 24:5
- modulation of mood and cognitive performance 17:10-11
- and Alzheimer's disease 17:9-10

Lemongrass, and oral thrush 31:10**Leukaemia** and Echinacea 10:4**Leukopaenia**, and Cat's claw 7:10-11 & 16:6**Ligustrum lucidum** and osteoporosis 40:4-5**Liquorice**,

- pharmacokinetics of glycyrrhizin 21:5
- protective against Azathioprine hepatotoxicity 26:8-9
- antitussive action 39: 6-7

Liver health (see under hepatoprotective)**Liver toxicity (also see under hepatotoxicity)****Lung cancer** and Bupleurum 22:7**Lycium**

- antioxidant effect 14:9
- hypoglycaemic and antioxidant effect 20:6
- helps prevent prenatal stress-induced cognitive impairment 34:5-6

Lycopus, and mild hyperthyroidism 29:7-8**M****MACCA** – positive recommendations 19:16**Malaria** and artemisia annua 19:7**Manuka**: Monograph 1: 3-7**Marshmallow**,

- beneficial effects on epithelial cells 35:3-4
- antitussive action 39: 6-7

Mast cells: histamine release from & tannins 8:6
Meat oxidation and rosemary 8:4-5
Memory,
 & Bacopa 14:6
 & Corydalis 24:8
 Ginkgo improves in middle-aged volunteers 37:10-11
Menopausal symptoms
 and Black Cohosh 28:3-4
 and herbal practitioner treatments 28:5-6
 Dong Quai in menopause 1:7-8
Microbial resistance 19:1-3 & 25:5
Milk Thistle
 neuroprotective and chemoprotective properties 14:7-8
 prostate cancer 19:12
 Silymarin - anti-influenza properties of 37:6-7
 Silymarin - in diabetes & Insulin resistance 27:7-8
Mood and cognitive performance, and Lemon Balm 17:10-11
Morning sickness , ginger and honey formulation 14:4-5
Morphine withdrawal,
 and Bacopa 14:7
 and Chamomile 17:4-5
Multiple sclerosis, and Ginkgo 24:7
Muscle loss in cancer, and fish oils 17:11
Myrtle oil, synergistic effects against *Candida albicans* 35:7

N

Nasturtium
 Traditional uses validated by recent research 39:2-3
Nausea
 Ginger & honey formulation, and morning sickness 14:4-5
 anti-nausea properties of Baical Skullcap 24:10
 Baical Skullcap for chemotherapy-induced nausea 17:7-8
Nettle Root & Saw Palmetto: mechanisms of action in BPH 11:6
Nigella sativa protects against ciprofloxacin-induced seizures? 39: 4-5
Neuroprotective properties of
 Milk Thistle 14:7-8
 Vervain 25:11
Nitrites in cured meat may increase risk of COPD 27:12
NSAID's, increased risk of heart attack 26:7
Nuts, the benefits of 40:6-7

O

Ointments
 calendula, and radiotherapy-induced skin damage 20:3
 comfrey,
 and ankle distorsions 20:2-3
 compared to diclofenac gel, ankle sprains 24:1-2
 for back pain 33:1-2
Olive Leaf, protects against UV radiation induced skin damage 35:5-6
Olive oil, and anti-hypertensive effects 20:8-9
Opiate withdrawal, assistance with
 Rosemary 40:2-3
 St John's Wort 40:3-4
Organic diet, health benefits of 21:44
Organic growing and more biodiversity 19:15
Organic kiwifruit healthier than non-organic 27:9-10
Organic science network, EU 20:11
Osteoarthritis,
 and Cod liver oil 18:6-7
 and rosehips 24:6 & 29:9
 Devils Claw & degenerative joint disease 9:4-5
Osteoporosis,
 And Ligustrum lucidum 40:4-5
 and phytotherapy treatment 31:5-6
Ototoxicity, Ginkgo protects against gentamycin-induced 36:9-10
Ovarian cancer, Rosemary protects against 38:5

P

Paeony,
 adverse interaction with laxatives 27:6
 and arthritis 29:10
PAF inhibition,
 and Ginkgo 21:7
Platelet function in diabetes and Ginkgo 23:7
Panax (see under Ginseng)

Paracetamol, and antibiotics, and increased risk of asthma 20:12
Parkinsons Disease, Withania useful in 33:4
Passionflower and reduction of pre-operative anxiety 30:1-2
Peanuts and diabetes prevention 15:10
Pelargonium, common cold and bronchitis 32:6
Peppermint, anti-allergic effects 14:8-9
Pharmacokinetics of glycyrrhizin from Licorice 21:5
Phytoestrogens: a review 11:8-11
Pistachio nuts and cholesterol 9:10
PMS and Vitex 10:6
Pokeroot, for diabetic glomerulopathy 20:7
Polygonum: potentiates cardioprotective actions of Dong Quai and Astragalus 7:11
Polyneuropathy and St John's Wort 10:3
Polyphenolic compounds better absorbed as plant extracts than isolated compounds 39: 8-9
Polysaccharides: adsorption of 11:3-4
Postmenopausal bone loss, and phytotherapy treatment 31:5-6
Pregnancy
 & Echinacea 8:1-2
 & St John's Wort 21:2-3
 use of herbal products during 35:10-11
Propolis
 ointment compared to acyclovir in genital herpes 7:7-8
 Improves fracture healing 37:11-12
Prostate cancer
 & avocados 21:10
 & Black Cohosh 22:6
 & Chaste tree 25:3
 & Flaxseed 11:5
 & Milk Thistle 19:12
 & nutritional substances 13:8-10
 dietary influences on chemoprevention 40:11-12
 dietary risk factors for 5:1-2
 PSA levels and soy consumption 15:9
 Red clover isoflavones, apoptosis-inducing ability 15:12-13
Pygeum, endangered herbs 18:1-5

Q

Qing Hao,
 antimalarial activity 19:7
 anti-HIV activity 38:7

R

Radiotherapy-induced skin damage and Calendula ointment 20:3
Respiratory illness, (also see under Influenza)
 prevention of with American Ginseng 20:4
 Nitrites in cured meat may increase risk of COPD 27:12
 Elecampane & tuberculosis 4:1
 URTI's: Echinacea pallida and 1:8
Red Clover isoflavones – apoptosis-inducing ability, prostate cancer 15:12-13
Rosemary
 & meat oxidation 8:4-5
 antithrombotic effects 22:3
 chemoprotective effects 11:4
 opiate withdrawal symptoms 40:2-3
 protects against ovarian cancer 38:5
Rosehips
 for osteoarthritis 24:6
 as a cyclo-oxygenase inhibitor 29:9

S

Sage
 and Alzheimers 16:3-4
 antidiabetic effects 22:2
 cognitive effects 24:9
Saw Palmetto
 and Nettle Root: Mechanisms of action in BPH 11:6
 compared to Finasteride in the treatment of BPH 3:2-3
Schisandra, and tacrolimus interaction 29:1-2
Schizophrenia:
 Ginkgo and Haloperidol 9:5-6
 American Ginseng helps schizophrenic patients 38:1
Siberian Ginseng, and Chronic fatigue 19:4

Silymarin (see under Milk Thistle)**Skin**

- Antipruritic effects of Chamomile 22:4
- Skin damage, UV radiation induced, Olive leaf protects against 35:5-6
- Echinacea promotes wound healing 33:3
- Anti-wrinkle cosmetics, herbal, evaluation of 35:6-7
- Radiotherapy-induced skin damage and Calendula ointment 20:3

Sleep disorders - Hops and Valerian combination compared to bromazepam in the treatment of 3:5

Sleep disturbances in children with intellectual deficits, and Valerian 14:10

Slippery Elm, endangered herbs 18:1-5

Smoking cessation, and Hypericum 17:1-2

Soy consumption

- cholesterol levels 20:9
- effect on serum PSA & LDL 15:9

Sperm

- Quality, Withania improves 36:4-5
- Antispermatogetic effects, Albizzia lebeck 25:12

Spiders & beetles, food choices 21:12

Sprains, ankle, comfrey ointment 20:2-3

Sprains, ankle, comfrey ointment compared to diclofenac gel 24:1-2

St John's Wort

- active components 6:6
- & depression 9:7-8
- & fertility fears 3:1-2
- & polyneuropathy 10:3
- & smoking cessation 17:1-2
- anti-depressant components 17:7-8
- anti-depressant effects of last longer than Citalopram 36:2-3
- anti-inflammatory effect 14:12
- antioxidant action 13:4-5
- breastfeeding, safety of use while 18:11-12
- pregnancy and lactation 21:2-3
- constituents, and epilepsy 16:4
- compared to fluoxetine in the treatment of depression 6:5
- compared to paroxetine in the treatment of severe depression 21:1-2
- clinical trial 8:5-6
- flawed clinical trial 12:7-8
- inhibition of human malignant cells *in vitro* 13:3-4
- interaction with irinotecan 14:5-6
- interactions with various drugs 6:1-5
- interactions with drugs 7:11-12
- opiate withdrawal 40:3-4
- regeneration of retinal ganglion cells 12:11-12

Statins

- hepatotoxicity, Ginger protects against 35:1-3
- Diet of cholesterol-lowering foods as good as statin drugs

Stress

- Anti-stress effects of Lemon Balm 20:7
- Withania, clinical research supports use 39: 3-4

Stroke

- & cannabis 3:5
- & fish 21:11
- risk of and fat intake 11:6-8

T

Tamoxifen, Black Cohosh in patients on 36:6

Tannins and histamine release from mast cells 8:6

Tea, and coronary heart disease 15:15

Thrush, (see under Candida albicans)

Thyme

- antithrombotic effects 22:3
- synergistic effect with antibiotics 23:11
- bronchodilatory effects 28:9-10

Thyroid

- Hypothyroidism**, and bacopa 14:6-7
- Hyperthyroidism** and Lycopus 29:7-8

Tienchi Ginseng, anti-cancer properties of (Panax notoginseng) 33:6-7

Tinnitus, and ginkgo 13:5-6

Tuberculosis and Elecampane 4:1

Turmeric

- anticancer properties 12:10-11
- diabetes/polyol pathway 12:11

U

URTI's: Echinacea pallida and 1:8

UTI's: prevention of by Cranberry-ligonberry juice and lactobacillus 10:7-8

V

Valerian and Hops compared to bromazepam for sleep disorders 3:5

Valerian

- anxiolytic effects 24:5
- for benzodiazepine withdrawal 14:10
- for sleep disturbances in children with intellectual deficits 14:10
- recent research on 38:4

Venous insufficiency and Horsechestnut 3:4

Vervain, neuroprotective effects 25:11

Vitiligo, and Ginkgo 16:7-8

W

Walnuts and cholesterol 7:9-10

Warfarin and Horsechestnut – interactions 3:6-8

Watercress and cancer 8:4

Weight loss

- & ginger 22:1-2
- & Goat's rue 6:7

White Horehound

- beneficial effect on cardiovascular risk parameters 16:5-6
- cardiovascular properties 26:6
- gastroprotective and other less known effects of 37:2-3

Wild Strawberry, leaves improve cardiac function 33:7-8

Withania

- anxiolytic and antidepressant effects of glycowithanolides 10:7
- adjunctive treatment during cancer chemotherapy 18:9-10
- & hypercholesterolaemia 25:6
- improves sperm quality 36:4-5
- Parkinsons Disease, useful in 33:4
- Clinical research supports use in stress 39: 3-4
- antitussive action 39: 6-7

Wormwood, beneficial effects in Crohn's disease 27:3-4

Wound healing, Echinacea promotes 33:3

- Propolis improves fracture healing 37:11-12
